

“We hear the cry of Earth, the cry of children. We feel humanity diminished.”

– 2013 General Chapter of the Sisters of Saint Joseph.

Dear Friends,

At MMP, we see participating in Earth Hour as a practical way in which we can example and action responsibility for the gifts and abundance of the earth.

On March 25 at 8.30 pm, we invite you to join with us in switching your lights off at MMP for one hour. This small action by you will help bring together our MMP community in the most simple and visual support of our environment.

To help us all find the light together in that darkness we will create, we invite you to gather with us for a fireside Earth Hour vigil **on the Lawn outside Alma Cottage from 8.30pm.**

At this vigil as we **SWITCH OFF TO JOIN THE FUTURE**, why not gather with MMP Staff and other Guests around the camp-fire to share drinks, nibbles and conversation.

By the light of the fire we hope to engage in conversation about our connected-ness with all of creation and our role in ensuring a viable future for our common home. There might even be a song of two.

We look forward to seeing you there.

For more information as to all the ways you can participate in Earth Hour and share this experience with friends and family, please take a look at the [Earth Hour website](#).

Thank you for considering sharing Earth Hour with us.
